

Introducing SpongeBob SquarePants Earplugs

He may live in a pineapple under the sea, but this summer SpongeBob SquarePants will be landing in a store near you with a new and fun way to protect your ears. The specially designed ultra soft earplugs are ideal for swimming, showering, studying and loud events.

Whether you want to protect your child's ears from infections whilst they swim on holiday, ensure that the loud music at festivals does not damage their ears, or just want a pair yourself because they're bright yellow, cute and ever so cool, the SpongeBob SquarePants ultra soft earplugs offer a great solution. These ear plugs use the same technology as BioEars™ and are suitable for all ages.

Available in Boots from July onwards.

Picture: British Swimmer Joanne Jackson shows the new SpongeBob earplugs to swimmers at Arnold Swimming Club, Nottingham.
