

# Hello Kitty

## Product Information

**NEW  
PRODUCT**

Antimicrobial earplugs for water and noise protection, a revolution in earplug design

Water can be very damaging to the ears, leading to ear problems such as Swimmer's Ear. Hello Kitty earplugs help to prevent Swimmer's Ear by keeping water out of the ears while swimming or bathing. The antimicrobial product protection keeps the earplugs free of microbes which may lead to earplug degradation, and extend usage\*. These ear also very effective as a snore blocker and protects the ears from other harsh noises.

Developed by Cirrus Healthcare Products LLC the makers of EarPlanes, these are the only soft silicone earplug which use **ACTIVAloe**™ a powerful anti-microbial agent.

Offers greater sound protection than other earplugs on the market.

\*Does NOT prevent or treat ear infections

### PIP Code:

#### How Hello Kitty earplugs work

Contains a powerful antimicrobial agent.

The soft silicone plug can be rolled and reshaped to mould to any size of ear forming an airtight seal. Through this design the product is able to block out more noise than conventional wax earplugs.

#### Product Features

Suitable for people who:

- have trouble sleeping
- need to block out the sound of snoring
- who regularly swim and need to protect their ears
- are health conscious
- need to cut out the sound of noise in the workplace

The product is:

- Waterproof
- Reusable
- Comes complete with a polypropylene container
- More comfortable to wear than conventional wax earplugs

Cirrus Healthcare are proud sponsors of Joanne Jackson, Olympic & World Championship medallist.
